SEE THE FUTURE OF NETWORKED COMMUNICATIONS

**See The Future of Networked Communications**

The convergence of AudioVisual (AV) and Experiential Communication solutions has engendered phenomena such as flipped classrooms, intelligent facilities with enterprise automation, 3D environments powered by virtual and augmented reality and more. Indeed, their impact is felt in every industry. How can you utilize cutting-edge technologies to benefit end-users and audiences?

**AV & Experiential Communications for Every Industry**

This December, get inspired by the endless applications of AV and Experiential Communication solutions at InfoComm Middle East & Africa 2017. The world's biggest and forward-thinking brands are poised to showcase their latest solutions. The Summit is where you can become privy to industry trends and learn from experts and fellow industry practitioners.

This is also where we have chosen to share our expertise. Visit our booth and explore our latest products and technologies. Discover first-hand how our solutions can help you design digital systems that drive business productivity.
