vSolution Cynap™
Collaboration & Wireless Presentation System
Collaboration, wireless presentation & knowledge sharing

When you’ve got something to say, we believe it is important that getting your message across and making an impact should be as easy as possible.

Our aim is to help you to explain it better, to give you the freedom to share your knowledge and collaborate with others - however you want, and whenever you want, when your audience is in the same room or on the other side of the world.

Because knowledge matters - to all of us.

Just like in the human brain where synapses are essential for quick processing and transmission of information, Cynap is a unique, powerful, and flexible system, that gives you instant access to information of all types from any source.
"Cynap is a powerful collaboration system that enables high performance presentation, recording, and distribution of all types of multimedia content material."

Douglas Marsland - Head of Audiovisual Services. Heriot-Watt University, Edinburgh, UK.
vSolution Cynap™
Presentation, Collaboration & Knowledge Sharing

Just like in the human brain where synapses are essential for rapid processing and transmission of information, the Cynap presentation and collaboration system, is a powerful, multi-functional, flexible interface, providing quick and easy access to information of all types from any source. It is the ideal system for inspiring engagement, interaction, and collaboration, in education, business and courtroom environments. With its optional feature pack, Cynap also functions as the ‘main station’ of our vSolution MATRIX collaboration solution.

**Media player: Information on demand**
Cynap plays, displays, records, and streams all commonly used media simultaneously, providing incredible versatility during meetings, lectures, and collaborative sessions. Information is easily available, whether stored locally or in the cloud, and files are also accessible for playback using a connected USB stick.

**Video recording / Lecture capture agent**
Full HD video recording captures all types of content materials, making flexible recording of multi-source, multimedia educational content easier than ever before.

**Webcasting: Efficient knowledge sharing**
Our optional Webcasting Feature Pack makes it simple to stream content for live or on-demand viewing via platforms such as Wowza, YouTube, Facebook Live. Additionally, students or work colleagues on the same network as the presenter can receive and record a stream to their mobile devices using our vSolution App.

**Wireless presentation: Bring your own device (BYOD)**
Cynap offers an all-in-one wireless BYOD solution suitable for all smartphones, tablets and laptops. AirPlay, Chromecast, and Miracast mirroring is supported, and up to 4 devices can connect without needing extra apps, dongles or additional software, and display on-screen content simultaneously in up to 4K output resolution.

**Panopto**

---

**BEST OF INFOCOMM 2015**

---
Collaborate together using the built-in digital whiteboard and annotation features of the Cynap System. Written notes are easily recorded and shared, along with other multimedia information.

The optional vSolution Meeting Feature Pack integrates a room booking feature into Cynap which interfaces perfectly with your Outlook Calendar, and also features flexible ad-hoc in-room booking capability.

Office 365 Feature Pack
The Office 365 Feature Pack provides access to popular Office 365 apps such as Word, PowerPoint, Excel, Outlook, Microsoft Teams, and OneNote (active Office 365 account required).

Access to Zoom meetings
Cynap provides support for Zoom video meetings. It’s possible to start an instant meeting or join a scheduled Zoom meeting directly from within a Cynap system.

Whiteboard and annotation
Collaborate together using the built-in digital whiteboard and annotation features of the Cynap System. Written notes are easily recorded and shared, along with other multimedia information.

Meeting room scheduling
The optional vSolution Meeting Feature Pack integrates a room booking feature into Cynap which interfaces perfectly with your Outlook Calendar, and also features flexible ad-hoc in-room booking capability.
Knowledge sharing any way you choose!
Cynap plays, displays, records, and streams all commonly used media simultaneously, giving you unlimited choice of materials during presentations, lectures, and active learning classes. Everybody can access files easily from almost any source, enabling convenient playback via Cynap.

All your files at your fingertips
- Cloud services
- Network drives
- USB drives
- All wireless or wired devices
Capture your content: & record to mobile devices

Cynap is perfect for Full HD recording of presentation content material for use in online learning environments. For business applications, Cynap offers a quick and easy way to record, archive, and share meeting and training content.

vSolution App
Capturing our own personalized recordings!
In addition to Cynap’s powerful internal recording capability, our vSolution App for iOS, iPadOS, Android, Windows, and Mac, lets students or work colleagues receive and record a live stream of presentation or lecture content from Cynap onto their own mobile smartphones and tablets.

You can even personalize your own copy of the recorded stream by adding notes and annotations in real-time.

Panopto & Opencast compatible
The optional Capture Feature Pack can be used for automated/manual recording and distribution of your content materials. The capture agent is compatible with either Panopto or Opencast services for secure, reliable, scheduling, processing, management, and intelligent distribution of academic and corporate video recordings.
Better collaborative working and learning

For effective communication between remote participants, support for Zoom meetings is provided, and additionally, a Microsoft Teams Client can be integrated into Cynap as part of the optional Office 365 Feature Pack if required. All multi-window content displayed on Cynap can be transmitted at the same time. A WebRTC web conferencing solution is also provided.

Stay connected:

- Support for Zoom meetings
- Microsoft Teams Client (Point to point connection)
- WebRTC integration (Pexip + more)
Bring your own device (BYOD)

No. 1 for wireless connectivity!
Our Cynap System provides the most comprehensive BYOD solution currently available. We offer compatibility with all iOS, iPadOS, Android, Windows, Mac, and Chrome OS devices, and our built-in support for AirPlay, Chromecast and Miracast mirroring means that it’s simple to connect, using the technology that’s already built in to your own mobile device - no apps or dongles required!

Control Cynap using your mobile device.
We’ve also made it super easy to control Cynap using any mobile device - HTML technology enables you to connect and control Cynap from your laptop, smartphone or tablet using any current web browser.

Going wireless!

>> No apps needed to connect
>> No dongles to lose
>> Screen mirroring for all devices (iOS, Android, Windows, Mac, Chrome OS)
>> 4 on-screen windows
>> Touchback function (Miracast): control your laptop using a touch screen display

>> AirPlay  >> Chromecast
>> Miracast  >> vSolution Cast

>> Video >>
Key system benefits!

You are in control!
No other collaboration system is as flexible as Cynap - you can control it however you want! Multi-touch display, mobile device, room control system, remote control, Visualizer, web browser, keyboard and mouse - the choice is yours!

‘Best of both worlds’ – connecting a Visualizer
When you want to show ‘live’ materials on-screen, adding a WolfVision Visualizer system is the most effective way to combine presentation content from both digital and physical sources - and changing media frequently, really helps audiences remember more of your presentation content!

Protect your data!
Network security is a key consideration when introducing a wireless collaboration solution into your organization. We use the following technology to keep your data safe:

- High level secure Linux system
- Integrated Firewall protection
- 802.1x secure LAN and WLAN authentication
- Enterprise level encryption
- HTTPS encrypted connections
- Feature lock options

WolfVision systems, software and apps are regularly updated. For the latest detailed information on new innovations, features, and functionality, please visit our website: wolfvision.com
Technical specifications

Features

- Operating system: Linux operating system, 8GB memory, 120GB internal storage
- Output resolutions: 2160p60, 2160p30, 1080p60
- Compatible device operating systems for controlling: iOS, PadOS, Android, Windows, macOS, Chrome OS
- Supported device operating systems for mirroring: iOS, PadOS, Android, Windows, macOS, Chrome OS
- Supported mirroring protocols: AirPlay, Miracast, Chromecast, vSolution Cast
- Touchback function: Yes (main station via optional feature pack, or client)
- vSolution MATRIX compatible: Yes (main station via optional feature pack, or client)
- Supported apps/software: vSolution App, vSolution Cast, vSolution Link Pro
- Media Player: Supported image file formats: GIF, JPEG, BMP, PNG
- Media Player: Supported document file formats: PDF, Word, PowerPoint, Excel, Text, HTML
- Media Player: Supported video file formats: AVI, WMV, MOV, MP4, Divx, MKV, M4V, OGV
- Media Player: Supported audio file formats: MP3, WMA, MKA, OGA, OGG
- Max. no. of devices simultaneously displaying material on-screen: 4
- Dual screen function: Yes
- Max. receiver concurrency unlimited (depends on network infrastructure)
- Webcasting to Wowza, YouTube and others (e.g. Facebook) Yes, via optional Webcasting Feature Pack
- Local video recording: Yes, selectable up to 1080p HD, 30fps, .mp4 file format
- Cloud services: Google Drive, Dropbox, Box, Janguyoun, OneDrive, WebDAV
- Access to Office 365 apps: Yes, via optional Office 365 Feature Pack
- vSolution Meeting Feature Pack: Optional
- Access to network drives: Yes
- Whiteboard and annotation: Yes
- Web conferencing support: Zoom meetings, Microsoft Teams via Office 365 Feature Pack, WebRTC
- Integrated web browser: Yes
- Customizable background image and screenaver: Yes
- Video input: HDMI x2 (HDMI with HDCP 1.4)
- Video output: HDMI x2 (HDMI with HDCP 1.4)
- Audio: Line in / Line out (unbalanced, 3.5mm mini jack)
- USB ports: Rear USB 3.0 ports x4, front USB 2.0 port x1
- LAN port: Yes, 2x 1GigE
- WLAN standards: 802.11 ac/a/b/g/n (2.4 and 5GHz), up to 867Mbps
- Network protocols: TCP/IP, FTP, HTTP, HTTPS, SNTP/NTP, SSL, SSH, UDP, LDAP, LDAPS
- IP configuration: DHCP, Static IP address, Subnet mask, Default gateway, DNS server, Proxy, Interface priority
- Security authentication for LAN: IEEE 802.1X
- Security encryption for WLAN: WEP, WPA2, WPA2 Enterprise and others (e.g. IKE)
- RMS encryption: Yes
- External controlling: Remote control with gyroscope sensor function, web interface, Visualizer, multi-touch display, remote control system, USB keyboard and mouse, device status display
- Dimensions (L x W x H): 245mm x 245mm x 79mm (9.65” x 9.65” x 3.1”)
- Power consumption: Max. 105W
- Weight: 2530g (5.58lb) standard configuration, 2655g (5.85lb) with HDBaseT (input & output)
- Mounting options: Optional 19” rack unit mounting frame, under desk mount, USB hub, HDBaseT-TX module
- Included accessories: Remote control, power supply, antennas, LAN cable
- Free firmware updates included: Yes
- Limited warranty: 3 years (optional warranty extension up to 5 years)
